Hello

I was unable to attend either of the drop-in sessions last week.

My question is about the intersection of Cherry Flat Road & Valiant Way, which I could find nothing about in the documents (May have missed it).

Recently the traffic lights on this corner have been altered to allow traffic from Ascot Gardens Road & Valiant Road to move separately across the intersection at Cherry flat Road, which has helped with the cars turning right from each side, but has now caused traffic to build up either banking up through DTC and along Valiant Road past the second entrance/exit behind Woolworths Store. I have had to sit through 3 or 4 sets of lights as cars in front are being courteous by letting cars from DTC into the queue.

The other issue with this corner is that cars are turning right immediately after intersection across traffic into the back of K Mart. I believe that this needs to stop as there will be a major accident. Now that the 3rd stage of DTC is under construction, what has been put in place for the extra flow of traffic along Valiant way.

Kind regards
