Hello [redacted],

My name is [redacted], I live at number [redacted]. I met with you on Friday the 8th of May regarding my property and the City of Ballarat flood planning scheme.

According to the flood planning overlay provided by you, my best calculation reveals that my property has an effected ground aera of approximately 0.34% with a depth of inundation of approximately 0.01%.

As my property is subject to such minimal flood water, would the City of Ballarat give consideration to remove my property from the C217Ball for 11 waterways scheme.

Thanking you in advance
