Nest boxes for wildlife	1	Outside of project scope/budget. Not appropriate for a local/neighbourhood park
Picnic area (tables, BBQ, shade/shelter)	5	**Consider as part of the redesign**

Recommendation Peel Street Reserve

The community feedback for Peel Street is reasonably straight forward with the following changes are recommended for Peel Street Reserve based on the community feedback:

- Provide increased clarity on the specific type of play equipment proposed for Peel Street Reserve making sure there is sufficient diversity for toddlers and older children
- Add a small covered picnic area with a picnic setting, small shelter and mid level planting
- Add standard park fencing to design.

Actions

- Make changes in line with recommendations as budget allows.
- Conduct a second round of engagement focusing on the expansion of the children's playspace add adding a small picnic area by posting changes to design and specific examples of formal and nature play to MySay and allowing an additional two-week feedback period.
- Residents will be notified of this timeframe by letter drop. Letter and second feedback timeframe shall be geared toward asking children to select which new pieces of play equipment they prefer from a set group through MySay survey response.
- Review feedback with the goal of achieving 80% support. Post final design outcome to MySay.
- Proceed to tender and implementation.
