Ballarat 3350

Dear Sir/Madam,

Ballarat Planning Scheme Amendment C234ball - Ballarat West PSP & Development Contributions Plan

We refer to your email received 2 July 2025 notifying Central Highlands Water (CHW) of the exhibition of Planning Scheme Amendment C234ball and inviting CHW to make comment on the Amendment, and we thank the City of Ballarat for the opportunity to provide feedback.

We refer to Clause 5.7.3 Integrated Water Management planning and design guidelines (see Page 76 of the Structure Plan) and the dot point *Consider and explore opportunities to implement innovative solutions including the installation of:* On point 3, CHW requests this to be shortened to simply say 'a third pipe recycled water system' and for the rest of the wording in this point be removed. We believe this is a broader and more accurate statement that allows flexibility should consideration of a 3rd pipe recycled water system occur in the future.

Other than the above request, we wish to advise that CHW has no objection to Amendment C243ball and supports the City of Ballarat in implementing the Amendment.

We look forward to working with the City of Ballarat in the future on other amendments and strategic projects. Please contact [REDACTED] Team Leader – Planning on [REDACTED] or via [REDACTED] with any queries.

Yours sincerely

[REDACTED]
Team Leader - Planning
